**Principal & Head of Capital Markets at
Westwater Corporation to Keynote
[Register by August 24th and SAVE \\$200](#)**

[James T. Leman](#)
*Principal and Head of
Capital Markets*
WESTWATER CORP

James T. Leman is currently a principal and Capital Markets Head of Westwater Corp., a management and technology company after having spent thirty four years involved in Global Electronic Trading and External Connectivity, Global Middle Office Operational Management and Regulatory positions with Citigroup, HSBC and the New York Stock Exchange along with their affiliates. Jim has thorough in-depth skills in all financial and operational aspects of the brokerage industry and led the firm and the industry in the creation and development of revolutionary technologies for equity trading and managing the processing of securities transactions. Mr. Leman was also recognized as one of the top technology innovators of the '90s by Wall Street & Technology Magazine.

Mr. Leman's responsibilities included supervision of over 24 Electronic Trading staff and over 260 Middle Office employees globally for customer electronic trading and post execution support respectively. His Connectivity teams in US, UK, Japan, Hong Kong and Australia oversaw trading and connectivity with over 1200 customers. His Middle Office teams in the same location support sales/trading and trader post execution processing teams, pursue STP objective and elimination of manual handling of trades through application of technology along with strong customer relationship building activities.
